1. THE ARTIST

Artist Lyonnais, this passionate singer of music and entertainment has been on stage for over 20 years now.

A very diverse artistic path that will allow him to make his weapons alongside many artists like Michel Delpech, Dave, Emile and Image, Claude Barzotti, Marc Lavoine, or more recently Didier Barbelivien.

Born April 18, 1979, Nicolas grew up in Lyon where he still lives. It was at the age of ten that he discovered music alongside his father. Pianist and drummer for several years, it is as a singer that he will make his first concerts and first passages in the studio.

At 19, he recorded his first album "Et si ..." composed of several titles he wrote since the age of 15 years. It is on this occasion that he will work for the first time with Jean Michel Zanetti (composer-arranger); the latter will realize the entire album.

At 22, Nicolas meets Jean Pierre Morcillo (JPM Productions) and finds the stage and the show in the first part of many artists like Michel Delpech, Dave, Claude Barzotti, Emile and Image and many others. His career will be punctuated by many meetings such as Marc Lavoine, Jean Paul Rouve or Julien Lepers, who will encourage and guide him very positively.

From the studios to the stage and the rehearsals of the shows, it's a busy schedule, and growing theaters that punctuate these years. Nicolas follows the shows: "A piano, a voice", "The book of time", "Cha'grain of humor", and since 2012 the show "100% SARDOU" with which he has traveled the roads of France for over 5 years.

At the end of 2015, Nicolas launched a new challenge with the release of the album "confidenti'elles" ... A new course for the singer with a return to the sources and a LIVE in his image.

January 2016, Michel Delpech leaves us. The desire to pay tribute to this artist is quickly becoming an obsession for Nicolas. This popular singer with whom he had the privilege of sharing the boards leaves behind a huge and timeless repertoire.

After a year of work the album "Tribute to Michel Delpech" comes out in April 2017. After some showcases in complete privacy, Nicolas will finally take the road with his musicians to live this tribute on the roads of France from September 2017 A tour throughout France with a visit to Luxembourg, Germany and Belgium.

4. PRESS & REFERENCES

"N.Reyno sings Sardou during a real live show"

The "Tributes" are sometimes pale copies of the original. This is not the case when Nicolas Reyno sings Sardou. The singer presented us a show entirely live. A show well built, with real musicians to accompany Nicolas Reyno. (...) Hardly the first introductory notes played, the audience who knows the lyrics by heart has often started to sing before the star of the day, Nicolas Reyno. (...) It was a delight to see the joy that reigned in the Paul-André Lequimme cultural center with all these people amazed by the strong presence of the artist on stage. The large concert hall was almost full this Friday night and the many public did not regret his trip. Here, no prerecorded soundtrack but a real group of musicians and singers to accompany the artist in a show well run and interacting with the public.
